

## Videos.

You cannot upload a video direct to Oz Clubhouse – you can open a 'Youtube Account' and upload it to 'You Tube' then paste a link into Oz Clubhouse and the video will show up.

As an example I did the following:

1. I opened a Youtube account (if you have a Google Account then you can login to Google and create the youtube account from in there.
2. I uploaded a video to: <http://www.youtube.com/watch?v=yIpcit9c2MU&feature=youtu.be>
3. When I went to the youtube link, **I clicked the share button under the video which brings up a shared link.**
4. I copied this link and went to my Oz Clubhouse page at <http://201v1-4.lions.org.au/joinnow>
5. I logged into the Oz Clubhouse and opened the editor and pasted in the shared link. <http://youtu.be/yIpcit9c2MU>
6. When you hit the 'edit button' to complete the action it automatically embeds the video onto the web page.
7. Note: When I want to edit the page again, there is a problem because the video stays open on the screen covering the editor. To get around this I had to click 'full screen' (Button-link at the top right hand of the editor) This allows you to continue editing.
